Pursuant to Long Beach Rate Schedule, cogeneration and large commercial/industrial customers are required to have LBE electronic meter-reading equipment installed for balancing and curtailment purposes. Customer is responsible for the cost of such equipment, the installation of and monthly service charges associated with such equipment installed on Customer's premises (i.e., telephone installation and monthly charge).

LBE requires payment prior to installation of electronic metering equipment. The cost to install the Ecat is \$1,981. Please indicate the name and address of the project when remitting this amount to:
